

TUFFBOOM

Log & Debris Booms / Dam Safety Boat Barriers

TUFFBOOM barriers are the choice of dam operators worldwide when it comes to controlling surface debris and satisfying regulatory guidelines for dam safety. These 10' (3m) modular units link together to form unlimited length boom lines. Accessories include high visibility mold-in graphics, hanging debris skirts, plates to close the gap between booms, boat gates, solar lights and more.

TUFFBOOM is made from thick-walled, UV resistant resin. Each boom includes a high load bearing internal steel channel through which all boom-to-boom connections are bolted. Each boom is fully filled with closed-cell foam making these booms truly unsinkable.

Whether your goal is to stop a 50' (15m) long tree or keep boaters a safe distance from your dam, the solution is simple. The solution is **TUFFBOOM**

TUFFBOOM

Log & Debris Booms / Dam Safety Boat Barriers

Features (At-A-Glance)

- Heavy-wall impact resistant polyethylene with max. UV resistance.
- Unsinkable solid internal core of non-water absorbing foam fill. Maintains buoyancy even when punctured.
- High load bearing internal steel channel provides strength and ballast, resists horizontal and vertical loads.
- Load-rated galvanized safety shackle connections permit full movement with minimal wear.
- Fully-interchangeable connection hardware.
- Connections are designed for continuous motion and heavy loads
- Mold-in Graphics™ with standard or customized warnings.
- Exceptional debris load capacity.
- Available in International Orange, Safety Yellow, Log Boom Brown, Forest Green, Black, White, Red, Navy Gray, Sand Tan.
- High Visibility, high buoyancy for maximum freeboard visibility
- Weight: Approximately 141 lbs (64 kgs) per unit
- Center to Center Length: 136 in (53.5 cm)
- Float Unit Length: 120 in (47.2 cm)
- Buoyancy: approximately 700 lbs (317 kgs) per unit.
- Anchor components designed to site specific conditions
- Assembles easily with little or no equipment required.
- Thousands of units installed worldwide with excellent results
